Contents of Volume 230

Vol. 230 Nos. 1–2 **April 28 2000**

Research Papers

Nitrogen transformation component for SHETRAN catchment nitrate transport modelling
S.J. Birkinshaw and J. Ewen 1

Modelling nitrate transport in the Slapton Wood catchment using SHETRAN
S.J. Birkinshaw and J. Ewen 18

Controlling processes in a $CaCO_3$ precipitating stream in Huanglong Natural Scenic District, Sichuan, China
G. Lu, C. Zheng, R.J. Donahoe and W. Berry Lyons 34

Precipitation areal-reduction factor estimation using an annual-maxima centered approach
W.H. Asquith and J.S. Famiglietti 55

Oxygenation of anoxic water in a fluctuating water table system: an experimental and numerical study
M.D. Williams and M. Oostrom 70

Post-blackening approach for modeling dependent annual streamflows
V.V. Srinivas and K. Srinivasan 86

Vol. 230 Nos. 3–4 **May 8 2000**

Review

The significance of surface complexation reactions in hydrologic systems: a geochemist's perspective
C. Koretsky 127

Research Papers

Using two-dimensional hydrodynamic models at scales of ecological importance
D.W. Crowder and P. Diplas 172

Aquifer response to stream-stage and recharge variations. I. Analytical step-response functions
A.F. Moench and P.M. Barlow 192

Aquifer response to stream-stage and recharge variations. II. Convolution method and applications
P.M. Barlow, L.A. DeSimone and A.F. Moench 211

A global river routing network for use in hydrological modeling
H. Renssen and J.M. Knoop 230

Daily reservoir inflow forecasting using artificial neural networks with stopped training approach
P. Coulibaly, F. Anctil and B. Bobée 244

Fault detection on a sewer network by a combination of a Kalman filter and a binary sequential probability ratio test
E. Piatyszek, P. Voignier and D. Graillot 258
